Motion to extend filing deadline

Comes now The Plaintiff and respectfully asks The Court to extend The December 15th deadline for showing cause as to why The order of dismissal should not issue and in support thereof states the following:

The Plaintiff was recently incarcerated at The Greene County Jail on December 2nd, 2025. The ~~Defendants~~ Plaintiff's parents were able to retrieve his mail for him shortly after The Plaintiff was taken into custody, after which The Plaintiff was made aware that the order of dismissal was issued, but remained ignorant as to its contents until December 20th, 2025 which is also the day I'm writing this. The Plaintiff was unaware of an opportunity to amend his complaint, or how he would amend, or contest its dismissal until December 20th, 2025. The Plaintiff was able to receive ~~the~~ a copy of the order after his parents forwarded it to him via The USPS.
